MESSAGE FROM THE UAZA TEAM

This has been another important and active year for UAZA — a year of advocacy, cultural diplomacy, education, research and community engagement, strengthening the connections between Ukraine and South Africa.

Over the past year, UAZA brought Ukrainian perspectives into important international and African conversations, including the **G20 Social Summit** and the **Tana High-Level Forum on Security in Africa**, where issues such as nuclear safety, international law, global governance, peace and security were discussed. We also continued our cooperation with South African civil society through the **Ukraine-South Africa civil society platform**, working together on issues including **UN reform, nuclear safety and the protection of children affected by war**.

At the same time, we continued to share Ukrainian culture and voices with South African audiences. Through initiatives such as the **MoloUkraine Book Club**, film screenings, dance performances, exhibitions, Ukrainian classical music and the visit of the Dakh Daughters, we **created opportunities for people to discover Ukraine through culture, conversation and human connection**.

One particularly meaningful moment was **South Africa's vote in favour of the UN General Assembly resolution on the Return of Ukrainian Children**. We are grateful to **President Cyril Ramaphosa**, the South African Government and everyone who supported the call to bring Ukrainian children home.

Moments like this remind us why UAZA's work matters. Our role is not only to organise events or advocate for particular issues. It is to build bridges, keep conversations alive, and **remind people that behind political statements and international resolutions are real people, families and children**.

We were also honoured to welcome **His Excellency Ambassador Dr Olexander Scherba**, marking a new chapter in Ukraine-South Africa relations and creating further opportunities for cooperation between the Embassy, UAZA and our partners.

But above all, UAZA is a community organisation. Everything we achieve is possible because people care and are willing to contribute their time, knowledge, energy and voices. We are deeply grateful to everyone who organised an event, attended a demonstration, wrote a letter, hosted a Ukrainian cultural initiative, supported a campaign, shared information, or simply continued to stand with Ukraine.

This AGM is also a moment of transition. The election of a new Executive Committee brings an opportunity for new energy, ideas and leadership, while carrying forward the experience, relationships and lessons built over the years. Change is part of a healthy organisation, and we see this transition as an opportunity to continue growing together.

As we approach **UAZA's 10th anniversary in 2027**, we have a special opportunity to celebrate what has been built over the past decade — and, even more importantly, to imagine what the next decade can look like.

Thank you to everyone who has been part of this journey and continues to stand with Ukraine.

Slava Ukraini!

Research on “Cultural environments and local contexts of South Africa”

UAZA was proud to have contributed to the recent research project “Cultural environments and local contexts of South Africa, Kenya, and Nigeria”, initiated by the **Ukrainian Institute** in cooperation with the **School of Political Analysis NaUKMA and Kyiv-Mohyla IR Department**. On 16 October, the Honorary President of UAZA, Dzvinika Kachur, presented the findings of the study on South Africa during the public event held in Kyiv. The presentation was followed by a thought-provoking panel discussion on the prospects and challenges for Ukraine’s cultural diplomacy in Africa, moderated by Alim Aliev, Deputy Director General of the Ukrainian Institute.

UAZA is proud to be part of this important initiative together with our Ukrainian partners, strengthening the bridge of cultural understanding between Ukraine and African countries.

CULTURAL COOPERATION

Ukrainian Classical Concerts by Dr. Taras Filenko

UAZA in partnership with the Embassy of Ukraine and Unplugged Concerts, organised concerts featuring renowned Ukrainian pianist and ethnomusicologist Dr Taras Filenko in support of the return of Ukrainian children abducted by Russia.

During his visit to South Africa, Dr Filenko also engaged with local universities, meeting with students and academics to share his expertise in Ukrainian music, culture and history. These meetings opened opportunities for further academic collaboration, including an invitation to offer a course at a South African university.

Through both his concerts and academic engagements, Dr Filenko brought Ukrainian culture and scholarship closer to South African audiences. His programme, featuring works by composers such as Mykola Lysenko and Myroslav Skoryk, demonstrated how Ukrainian music has preserved the identity and resilience of a nation through centuries of repression and continues to speak powerfully today.

MAZEPPA INFORMATION SIGN

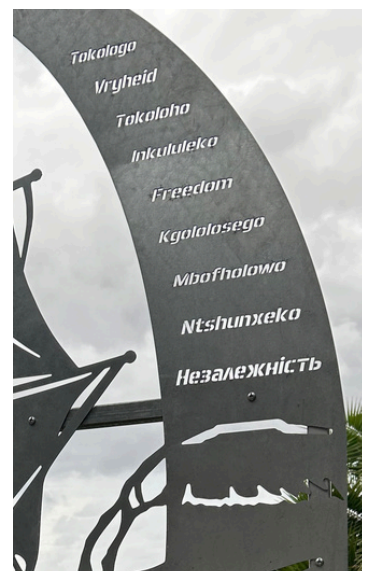

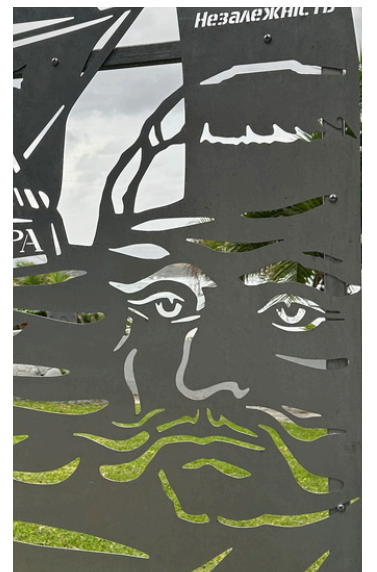

September 2025

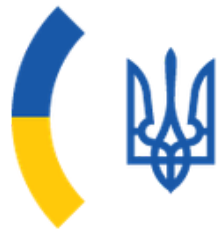

The information sign installed at Mazeppa Bay, honours the unique connection between South Africa and Ukraine. It features the Mazeppa schooner alongside a portrait of Ivan Mazepa, a 17th-century Ukrainian leader who, while never visiting South Africa, reached the Wild Coast via maritime history and Romanticism-era poetry.

On the right side of the sign, the word "Freedom" is inscribed in 11 South African languages and in Ukrainian, symbolising a shared value that connects both histories.

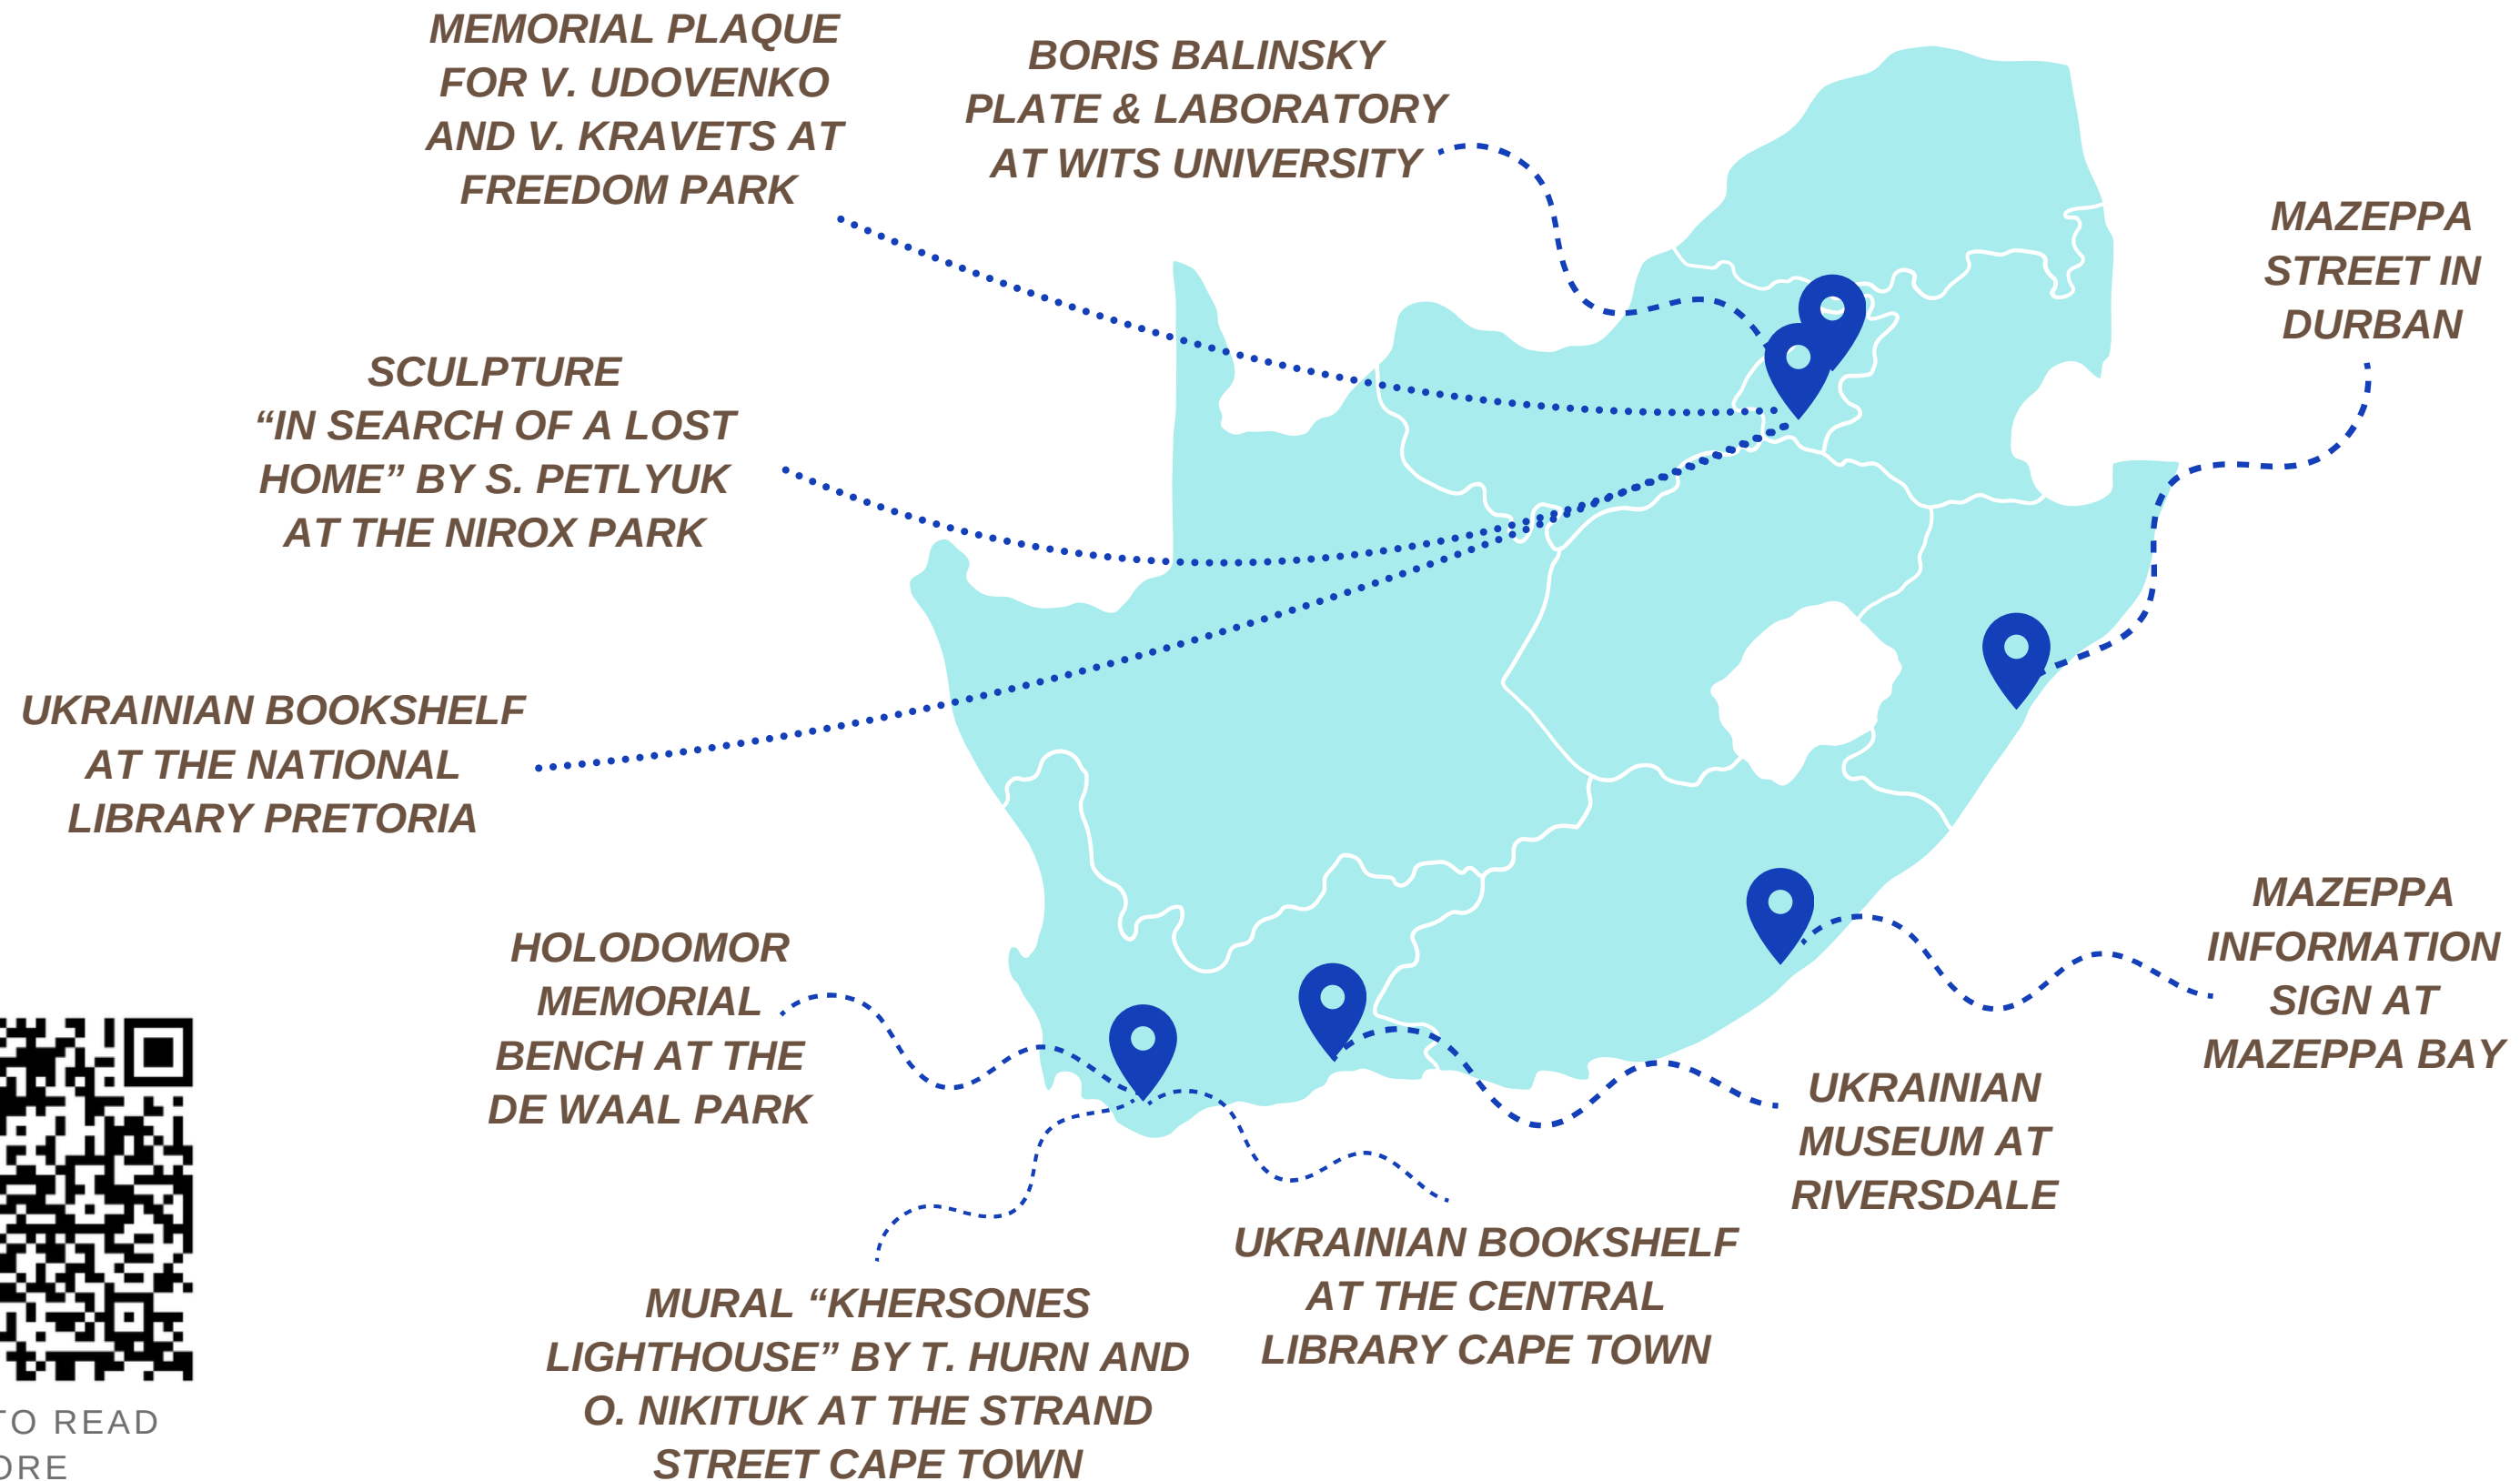

This sign is a joint initiative of the View Mazeppa Bay Hotel, the Ukrainian Association of South Africa, and the Embassy of Ukraine to South Africa partnered to promote the Mazeppa Bay story.

COMMEMORATION THE VICTIMS OF HOLODOMOR

Annual event since 2017

Members of the Ukrainian Association in South Africa gathered at the memorial bench in De Waal Park, Cape Town, to light candles and honour the millions who perished during the Holodomor.

The commemoration was attended by special guests, including Father Bohdan from Fatima Church, who offered a moving prayer, and Peter Bermann, who joined in memory of his father, South African engineer Jeremy Bermann. Working in the Luhansk region in 1932–33, Jeremy Bermann witnessed the Holodomor and documented the famine and Soviet repression in 86 letters sent to South Africa. These letters are now preserved by the Holodomor Museum.

As a symbolic act of remembrance, attendees and park visitors were invited to share bread, honouring the victims and keeping their memory alive.

The events were organised with the support of the Embassy of Ukraine

HOLOCAUST IN KHARKIV AND THE IMPACT OF THE RUSSIAN INVASION

May 2026

During World War II, Ukraine was one of the major theatres of war. Between 1939 and 1945, millions of Ukrainians suffered under Nazi and Soviet occupation, with more than 10 million people lost.

Russia's full-scale invasion since February 2022 has also threatened places of Holocaust memory. In Bakhmut, Drobytsky Yar in Kharkiv, and Babyn Yar in Kyiv, sites commemorating victims of Nazi atrocities have been damaged by Russian attacks.

The war has also claimed the lives of Holocaust survivors. In March 2022, 96-year-old Borys Romanchenko, a survivor of Buchenwald, was killed when Russian shelling struck his home in Kharkiv.

These events highlighted the importance of protecting historical memory. UAZA was a media partner of an event hosted by the Holocaust Centre in Cape Town, featuring a conversation on Holocaust memorialisation in Kharkiv and the impact of Russia's invasion.

The Cape Town Holocaust & Genocide Centre, together with the EVZ Foundation and Yahad-In Unum, invites you to an online event featuring a screening of the short documentary **Holocaust in Kharkiv**, followed by a conversation on the challenges of researching, preserving, and teaching the history of the Holocaust in times of war.

HOLOCAUST IN KHARKIV MEMORY, WAR, AND THE STRUGGLE FOR HISTORICAL TRUTH

The mass shootings of Jews and Roma between 1941 and 1945 – often referred to as the “Holocaust by Bullets” – remain a significant blind spot in European remembrance culture. While much attention has focused on concentration and extermination camps, millions of victims were murdered in fields, forests, and ravines across Eastern Europe.

Since gaining independence, Ukrainian civil society has undertaken important efforts to develop a responsible culture of remembrance through memorialisation and education. Today, in the fifth year of the war, many of these historical sites are under threat, while Russian propaganda continues to distort and instrumentalise history.

PANELLISTS

 Lesya Kharchenko – Documentary filmmaker and journalist based in Kyiv whose work explores war, memory, and human dignity.	 Michal Chojak – Director of the Research Center at Yahad-In Unum, specialising in the history of mass shootings of Jews and Roma in Eastern Europe.	 Lara Alexa Nagel – Political scientist at the EVZ Foundation focusing on Holocaust remembrance and educational initiatives.

MOVIE SCREENING

KHERSON: HUMAN SAFARI

is a powerful documentary that brings audiences face-to-face with the lived reality of Ukrainian civilians under Russian occupation and relentless attack. Through personal testimonies and stark, human-centred storytelling, the film reveals how ordinary people in Kherson endure terror, humiliation, and violence - simply for being Ukrainian - and how they continue to resist with dignity and strength. Plant, and the hunting of civilians with drones, as if on a safari. Russian forces continue to target civilian infrastructure, residential buildings, and local residents. Yet despite all these crimes, the city continues to live. People continue to create, care, and love despite suffering, loss, and trauma. Because only by caring and loving can one remain human.

The audience had the opportunity to see Kherson through a video message from the film's creator, Zarina Zabrisky, and after the screening to ask her questions directly via an online connection. Please [read interview with Zarina Zabrisky](#). The Truth Hounds have also provided the exhibition based on the report about the drone attacks on civilians in Ukraine. [Click to see the exhibition](#). The room was decorated with watermelons – the symbol of an agricultural city on the Dnipro River, Kherson.

VIKA'S LAST ASSIGNMENT DOCUMENTARY SCREENING

on 28 April 2026, UAZA joined the Embassy of Ukraine in South Africa for a special screening of the award-winning investigative documentary Vika's Last Assignment by Slidstvo.Info, followed by a discussion on journalism and press freedom.

Held at Bio Scope Cinema in Johannesburg, the event took place around South Africa's Freedom Day and reflected on the freedoms that remain denied to many. The story of Ukrainian journalist Viktoriya Roshchyna, whose courage and tragic fate have become a powerful symbol of the risks faced by journalists under occupation and during armed conflict, was at the heart of the programme.

The screening was followed by a discussion with Yanina Korniienko, journalist at Slidstvo.Info and author of the documentary, moderated by Micah Reddy of the International Consortium of Investigative Journalists.

The event was organised by the Embassy of Ukraine in the Republic of South Africa in cooperation with the Ukrainian Association of South Africa, with the support of the Embassy of Sweden in the Republic of South Africa.
